Used Cars in Andorra: Where to Search in 2026 (Complete Guide)

In Andorra, there are around 1,950 used cars available across all platforms. Outside Andorra, on the German market alone, over 800,000 vehicles are importable. Most residents check both markets before making a decision — and rightly so: price differences can exceed €20,000 on the same type of model.

Anyone living in Andorra who wants to buy a used car faces the same question: where do I look? The Andorran market exists, works and has options. But you need to understand its reality: it's a small country with a limited stock. That's why in Andorra it's completely normal to look at what's available locally as well as what can be imported from abroad.

This article explains exactly where to search, how many options you really have, and why it's always worth comparing both markets before making a decision.

Where to search for used cars in Andorra in 2026?

There are four main sites that every Andorra resident should know about. Each has a different approach, and ideally you should check all of them to get the full picture.

ImportoCotxe.ad — The import market, from your sofa

ImportoCotxe.ad lets you explore the entire stock of cars available for import to Andorra directly from the web, without talking to anyone and with no commitment. The prices you see already include the total cost of the vehicle imported and registered in Andorra: transport, customs, IGI tax, Andorran vehicle inspection and registration.

Why start here? Because it gives you access to a market of over 800,000 importable vehicles, mainly from Germany. At a glance, you can compare what a car costs abroad with what you find locally. Many residents who start searching in Andorra end up buying through

import simply because there's more to choose from and prices are generally better.

BuscoCotxe.ad — The local reference

BuscoCotxe.ad is the main portal for buying and selling vehicles in Andorra. All industry professionals publish here — dealerships, garages and automotive businesses — as well as private sellers. It's the platform with the most cars listed on the Andorran market.

If you want to know what's available right now in Andorra, BuscoCotxe is the first place to look on the local market.

Wallapop — For finding cars from private sellers

Wallapop is not an Andorra-specific platform, but many Andorran private sellers list their used cars here. If you're looking for used cars from private sellers in Andorra, Wallapop is your best bet. You'll regularly find vehicles that don't appear on BuscoCotxe, as some sellers only list here for convenience.

Keep in mind that Wallapop mixes Andorra results with nearby areas in Spain and France. Make sure to filter by location to see only what's actually in the Principality.

CotxesAndorra.ad — The newcomer

CotxesAndorra.ad is a newer platform that, while still having fewer listings, stands out for its modern design and filters that make searching easy. It's worth keeping on your radar as it's growing and complements BuscoCotxe well.

How many used cars are there really in Andorra?

This is the key question, and the answer surprises many people:

Market	Cars available (February 2026)
All of Andorra (BuscoCotxe + Wallapop + dealers)	**~1,950**
Import market (mainly Germany)	**1,472,000**
Of those, importable to Andorra (max. 6 years old)	**811,712**

In other words, **outside Andorra there are over 500 times more options** than inside. This doesn't mean there aren't good cars in Andorra — there are. But if you're looking for a

specific model, with a particular colour, a certain level of equipment and a mileage range, the chances of finding it among 1,950 options are much lower than among 800,000.

That's why in Andorra it's so common to check both markets. It's not a case of "if I can't find it here, I'll look elsewhere" — it's about **always comparing both options to make the best decision**.

What types of cars are most popular in Andorra?

Andorra has very particular characteristics that influence the type of car people look for:

- **Mountains and snow in winter** → 4x4 drive and winter tyres are practically essential
- **Narrow roads and small car parks** → oversized cars are impractical
- **Moderate mileage** → most buyers look for vehicles with under 80,000-100,000 km

The result: **compact 4x4 SUVs** are by far the most in demand. Models like:

- Audi Q3
- Mercedes GLA and GLC
- BMW X1 and X3
- Mini Countryman
- Jeep Renegade and Compass
- Porsche Macan

And a surprising fact: **the Porsche 911 (Carrera) is one of the best-selling cars in Andorra year after year**. It may seem surprising, but the profile of Andorra residents and the country's tax advantages make it more common than you'd think.

Is it worth importing a car to Andorra? A real example

The best way to answer this question is with real numbers. Let's take the example of a **Porsche 992 (from 2020)**, a highly sought-after car in Andorra:

	In Andorra	Import
Cars available	43	925
Lowest price	€120,000	€95,300
Options below €120,000	**1**	**70+**

It's not necessarily about comparing the exact same car, but about seeing the difference in options. In Andorra there are 43 Porsche 992s and the cheapest costs €120,000. Abroad, there are over 70 options below that price. When you have 20 times more to choose from, it's much easier to find the car you actually want, with the equipment and mileage you're looking for.

This dynamic repeats across all types of vehicles. For a compact SUV in the €30,000-40,000 range, the typical saving when importing is around €3,000 to €4,000.

From what price does importing make sense?

As a general rule, **from around €15,000** it starts to make economic sense to have a company manage the import of a car for you. Below that figure, the fixed costs of the operation (transport, paperwork, homologation) don't usually justify the price difference.

That said, there are cases where importing below that threshold can make sense: when the car you're looking for simply doesn't exist in Andorra and the only way to get it is to bring it from abroad.

What are the costs of importing a car to Andorra?

Item	Approximate cost
IGI (4.5% on the vehicle's value)	Variable
Homologation (if the car doesn't have it)	€150-250
Customs duties, vehicle inspection, registration and plates	~€700
Truck transport to Andorra	€1,300-1,500

Item	Approximate cost
Private transport (door to door)	€2,500-4,000
Picking it up yourself (flight + temporary plates)	~€600-700

With ImportoCotxe, the prices you see on the website already include all of this. No hidden costs or surprises. Additionally, all cars imported through ImportoCotxe include **one year of warranty**.

How does the process work with ImportoCotxe?

The process is straightforward and always starts with personalised guidance:

1. **You browse the online catalogue** at importocotxe.ad to see what's available and get an idea of prices
2. **You tell us what you're looking for**: model, budget, equipment, mileage... whatever you have in mind and what's still open
3. **We analyse options together**: we present several alternatives, compare and refine until we find the right one. It's not "pick and go" — we advise you so you make the best decision
4. **We take care of everything**: purchase, transport, customs, homologation, vehicle inspection and Andorran registration
5. **We deliver the car** registered, with Andorran plates, one year of warranty and ready to drive

The full process usually takes around 4 weeks from the moment the car is confirmed.

Frequently asked questions

How many used cars are available in Andorra?

As of February 2026, there are approximately 1,950 used vehicles listed in Andorra across all platforms. It's a small but functional market. To widen their options, many residents also look at the import market, where over 800,000 vehicles are available.

What are the best platforms to search for used cars in Andorra?

The main ones are BuscoCotxe.ad, where all industry professionals list their cars, Wallapop for private sellers, CotxesAndorra.ad as a newer platform with a clean design, and ImportoCotxe.ad to explore the import market from Germany with all-inclusive prices.

What types of cars are most popular in Andorra?

Compact SUVs with 4x4 drive are the most in demand: Audi Q3, Mercedes GLA, BMW X1, Mini Countryman and Jeep Renegade. The mountains, snow and narrow roads mean that not-too-large cars with all-wheel drive are the most practical choice.

Is it common to import cars in Andorra?

Yes, it's completely common. The majority of buyers in Andorra look at both the local market and the import market before deciding. With a local stock of around 1,950 units versus over 800,000 importable ones, looking abroad is simply the logical thing to do.

From what price does it make sense to import a car to Andorra?

As a general rule, from around €15,000 in vehicle value it starts to make economic sense. Below that, the fixed costs of importing (transport, homologation, paperwork) may not justify the difference. Although there are exceptions if the car you're looking for can only be found abroad.

How much can you save by importing a car to Andorra?

It depends on the model, but the differences are significant. For a Porsche 992, for example, there are over 70 import options below the €120,000 that the cheapest one costs in Andorra. For compact SUVs in the €30,000-40,000 range, the typical saving is €3,000 to €4,000.

Do ImportoCotxe prices include all costs?

Yes. The prices shown on importocotxe.ad include the vehicle cost, transport, customs, 4.5% IGI tax, Andorran vehicle inspection, registration and plates. Additionally, all cars include one year of warranty. The price you see is the final price.

Updated February 2026. The ImportoCotxe team has been importing cars since 2017, has operated in Andorra since 2022 and has completed more than 500 imports.

Want to compare prices? Head to importocotxe.ad and explore the full catalogue with no commitment. If you find something you like, we take care of everything.
